

Make this dignity dinosaur extinct!

This is Practical Jokeraptor. It is a keen-eyed opportunist that causes a painful sting by what it does - that it tries to camouflage by saying it was 'just having a laugh'.

This dinosaur is responsible for hiding PPE or pretending to cough in someone's face.

It's not funny and it's not okay.

Help us to eradicate this dinosaur. Don't encourage it and don't get involved.

Your manager and HR can help you if you are concerned.
