

OCTOBER 22-24, 2019

INTENSIVE THREE-DAY HANDS-ON TRAINING

Held at Carestream by Coating Tech Slot Dies | Windsor, Colorado, USA

REGISTER FOR COATING TECH INSTITUTE

Make plans to attend Coating Tech Institute WEST 2019, a combination of classroom instruction and hands on experiences with an operating coating line will provide attendees with a comprehensive understanding of slot die coating technology. This event is designed for companies in any fluid coating industry, from adhesive coated tapes to lithium ion batteries and includes a confidential individual consulting session as part of the final day of the event.

THE CONFERENCE FOCUSES ON:

- Introduction to slot die coating technology
- Rheology
- Process
- System
- Technique
- Coating Defects and Resolutions
- Slot Die features and setup
- Slot Die Operation

REGISTRATION:

- \$1,500 per participant before 8-31-2019
- \$1,625 per participant 9-1-2019 to 9-30-2019
- \$1,750 per participant after 10-1-2019
- Register online www.CoatingTechInstitute.com

WHY ATTEND?

Participants increase their knowledge and experience with slot die coating very significantly over the course of Coating Tech Institute. You will leave with:

- Hands on experience in assembly and disassembly of various parts of a slot die coating station
- Troubleshooting process and documentation tools for resolving coating defects utilizing Six Sigma methodology
- Technical calculator customized for common, but complex, calculations and conversions frequently used in coating
- Exceptional industry contacts, resources, and increased knowledge of slot die coating technology
